GOOD OUTLOOK FOR COAL DEVELOPMENT

MINE AT COALDALE EXPECTS TO SUPPLY SOUTHERN NEVADA NEXT WINTER

H. A. Darns, the Coal Dale coal magnate, was a visitor to Tonopah yesterday. He is working men in sinking the sump and installing the pumping system. The shaft will be continued to depth. The water that is coming in is occasioning considerable expense, but it is judged to be a favorable sign that a contact has been reached that will be productive of a better grade of coal and increased quantity. It is the expectation of Mr. Darns that he will be able to supply all of southern Nevada with coal next winter. The latest analysis was 15 per cent ash, 58 per cent fixed carbon, 3 per cent moisture, one per cent sulphur, and the balance volatile matter.

like this; and might have waited ten or fifteen or any number of years before bringing this suit, which condition of things is one the statute is intended to prevent, coming well within the reasons upon which it is founded.

The motion for a new trial herein is overruled and a new trial denied.

The findings of fact and conclusions of law offered by the plaintiff are adopted in so far as they are in harmony with this and the preceding opinion, that of January 12, 1915; and specifically as offered except as objected to by the defendant, whose objections are sustained, and whose amendments are accepted as correct.

This ruling being adverse to the plaintiff in the respects noted, counsel for defendant is hereby directed to prepare findings of fact and conclusions of law herein and to submit the same for approval within ten days from the date hereof.
